Panel discussion

AI, Authorship and Human Creativity in Education, Science and Arts

4th of June 2025, 6:30 pm til 8 pm
Schader-Forum, Goethestraße 2, 64285 Darmstadt

The role of authorship

We want to ask how the role of authorship is changing through AI. On the one hand in science, where both scientific texts, student papers, and research proposals are generated by AI, and on the other hand in art and society, where value has usually been placed on who created a work of art and how the work is related to its creator.

Several guests will share their perspectives from the fields of education, science, and arts. This will be followed by a moderated and interdisciplinary discussion. The panel discussion is framed by an academic conference, but is formally independent of it. The panel discussion is aimed at the general public.

We would also like to draw your attention to the conference on "Knowledge in the Age of Digital Re-/Production" taking place on June 4 and 5, which explores how digitization is transforming the production, distribution, and use of knowledge: *www.schader-stiftung.de/KnowledgeInDigitalAge*

Cooperation

The panel discussion on "AI, authorship and human creativity in education, science and arts" aims to bring together experts from the Arts, Humanities, Social Sciences, Technology, and other fields, exploring (non-)positivist ways of enquiry and knowing.

The Conference and the public Evening Event is hosted by the Schader Foundation and the European University of Technology (EUt+) and organized by the European Culture and Technology Laboratory (ECT Lab+) and its MSCA SE project EpisTEAM.

Registration is required to attend the event. Further information and registration for the public event can be found at: *www.schader-stiftung.de/AIandAuthorship*

Program

Wednesday, 4th June 2025

6:30 pm **Welcome**
Alexander Gemeinhardt, Schader-Foundation
Prof. Dr. Dominik Gager, Darmstadt University of Applied Sciences

6:45 pm **Panel discussion**
AI, Authorship and Human Creativity in Education, Science and Art

Margret Mundorf, Writing Scholar
Philipp Schrögel, Science Communicator
Allapopp, Media Artist

8:00 pm **Get Together**
